Fern Drive Elementary is a Marzano High Reliability School, PBIS Platinum Distinguished School, Honor Roll recipient, Common Sense Media Certified Digital Citizenship school and a Gold Ribbon School. We believe in fostering critical thinking, problem solving and creativity through **Science, Technology, Engineering, Arts and Mathematics**, or STEAM.

Students immerse themselves in year-round hands on science labs, and express their learning through collaborative projects rooted in STEAM principles. Fern Drive's students receive innovative instruction in music, dance, theatre and art through our All the Arts program, and further their hands on experiences through the All the Arts [Creativity Center](#) located on our campus. Our expanding iPad program is seamlessly integrated throughout the curriculum providing students the opportunity to pioneer their own learning through thoughtfully designed, engaging lessons both at school and at home. Our teachers are highly trained in all aspects of Curriculum and Instruction and use research-based teaching strategies to ensure all students are learning successfully.

Eleanor Roosevelt said, "The future belongs to those who believe in the beauty of their dreams." Fern Drive is proud of the strong partnerships forged with families and community, working together to build a bright future for our students!
