

Second Grade Home/Student Connect

Students will be bringing home a packet aligned with each unit from our Wonders Language Arts series. Each packet will contain spelling words, vocabulary, high-frequency words, and fluency passages.

In addition, we will be sending home the Go!Math practice book so that students can practice skills learned in class.

Please have your children read for at least 20 minutes every day. This can include:

- child reading independently
- child reading to someone
- someone reading to your child
- listening to books online while looking at printed text
