

November 3, 2020

Dear Fullerton School District Parents and Guardians,

The CDC states on their website that “travel increases your chance of getting and spreading COVID-19. **Staying home is the best way to protect yourself and others from COVID-19.**” We do understand that there are instances when parents and their children have to travel out of the country.

Before traveling out of the country, we are asking parents/guardians to review the CDC website at <https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html> to determine what the CDC is recommending before, during, and after travel. Additionally, if you and your children are traveling to a country that is listed as a Level 2 or Level 3 ([See linked map](#)) on the CDC’s website, we are asking parents/guardians to notify the school office prior to your departure and contact the school office upon your return and before physically coming to school. Your school’s principal and school nurses will determine if your child will be required to quarantine for 14-days after your return to the Fullerton area and prior to your child’s return to school per the CDC’s guidelines. If your child is required to quarantine, your school’s nurse and principal will communicate with you regarding your child’s quarantine and schooling options during the quarantine period.

Please contact your school office if you have any questions.

Thank you.
