Goals for the School District

The Board of Trustees believes in the reforms, incentives and strategies developed in the Hughes-Hart Educational Reform Act of 1983. The District shall provide for its students' educational, personal and career needs by striving to:

1. Provide a variety of classroom settings and instructional styles which research has proven to be effective.
2. Maintain orderly and efficient campuses which encourage positive attitudes in students and high morale and quality teaching from teachers.
3. Provide for the specialized needs of identified groups of students by the effective use of categorical aid funding.
4. Provide appropriate instruction to meet the varied future and career goals of students.
5. Assure that students achieve academic proficiency in essential areas of skill and knowledge.
6. Identify and respond to the individual educational needs of students, each of whom is a unique human being who can ultimately become a responsible and contributing member of society.
7. Develop in each student an attitude of respect for self and others, personal and academic responsibility and critical thinking.
8. Involve parents and community members in a broad range of activities at each school, recognizing the vital role of parental attitudes and values in education.
